

All our factories undergo an annual audit to ensure **at least minimum wages have been paid, working conditions are safe** and up to regulations

We ensure **all factories we use meet health and safety regulations**

We currently **produce over 30 lines in the UK** which reduces our carbon footprint

Our Factories

We ensure that **all our products are ethically sourced**

We do not factory hop. We build long lasting relationships with our factories

It doesn't cost the **earth** to be more **sustainable.**

Here are some new measures we've introduced into our process... without any impact on our highly competitive prices:

For 2022 Production Lines

- Innovation Sweatshirts, Sweatshirt Cardigans, V-Neck Sweatshirts and Jog Bottoms will be made using **40% recycled materials**
- We will be **cutting the use of plastic bags by 50%** and a number of our lines will no longer be individually bagged
- Blazers will be made from **100% recycled polyester** (from plastic bottles)
- Shirts and blouses will be made from **Non Iron and Stain resistant Fabric**
- **All polybags will be recyclable bags**
- **All trousers** will be made using **100% recycled materials**
- **All skirts** except box pleat skirts will be made using **100% recycled materials**
- **Our stretch and 2 button/flap pinafores** will be made using **100% recycled materials**
